EDUCATION

Lovely Professional University

B.Tech CSE (Hons); GPA: 8.06

Punjab, India

June 2020 - August 2024

Phss Pavandoor

12th: GPA: 8.86

Kerala, India

June 2018 - Mar 2019

SKILLS SUMMARY

- **Programming:** JavaScript, HTML, CSS
- **Frontend:** React.js, Bootstrap, Redux, Material UI
- **Backend:** Node.js, Express.js, Web Forms, MVC
- **Database:** MongoDB, Microsoft SQL Server, T-SQL, LINQ to SQL
- **Version Control:** Git, GitHub
- **Media Management:** Cloudinary
- **Templating Engine:** EJS
- **Networking:** Basic understanding of L1 networking concepts, Ethernet, physical layer cabling standards, LAN/WAN fundamentals, and IP addressing
- **Soft Skills:** Problem-solving, Analytical Thinking, Communication, Teamwork, Adaptability, Leadership, Critical Thinking

WORK EXPERIENCE

SOFTWARE DEVELOPMENT INTERN

MAITEXA TECHNOLOGIES, KOZHIKODE

JANUARY 2024 - APRIL 2024

- Developed scalable web applications using the MERN stack, enhancing backend efficiency and user experience.
- Assisted in API development and database design, optimizing data flow and improving system performance.
- Developed and tested interactive UI components, ensuring seamless user navigation and responsiveness.
- Collaborated with cross-functional teams to streamline development processes.
- Gained experience in agile methodologies, participating in sprint planning, stand-ups, and project reviews.
- Resolved bugs and performance issues, ensuring smooth deployment and maintaining high application stability.

PROJECTS

Healthcare Platform (Doctor Finding & Medicine E-commerce)

- Built a React-based UI with a Node.js backend for searching and connecting with healthcare professionals.
- Created a secure purchasing system with seamless MERN integration for online medicine purchases.
- Implemented user authentication and role-based access control for data privacy and security.
- Developed an appointment scheduling system for booking consultations with healthcare professionals.

Skill Swap Platform

- Implemented user authentication and role-based access for course enrollment and creation.
- Used Vite for fast development and optimized performance.
- Integrated video streaming capabilities for course content delivery.
- Designed a review and rating system to enhance course credibility.

Personal Portfolio Website

- Designed and developed a fully responsive personal portfolio using React.js and CSS3.

Blood Donor Project

- Developed a blood donor platform using Node.js, Express.js, and EJS templating.
- Designed a user-friendly dashboard for donors to manage profiles and availability.

Food Delivery Website

- Developed a responsive full-stack e-commerce website using HTML, CSS, and Bootstrap.
- Implemented a user-friendly ordering system with real-time tracking.
- Designed a database schema for efficient storage and retrieval of order details and user information.

CERTIFICATES

- **Full-Stack Development with MERN (Online Course)**
- **Data Structures & Algorithms Certificate – HittsBulleye**
 - Covered fundamental and advanced data structures, including Arrays, Linked Lists, Stacks, Queues, Hash Tables, Trees, and Graphs.
 - Developed optimized solutions for real-world algorithmic challenges and competitive programming.
 - Hands-on implementation of dynamic programming techniques for optimized problem-solving.
